

**About Melissa:** A hairdresser by trade, Melissa always thought that was what she was destined to do for a career. And although she always wanted to own her own business she never had the financial means to start her own salon so ended up working for someone else. Not afraid of working hard since she started at 14, Melissa often had to juggle two or three jobs to make ends meet as a single parent after her son Oscar was born. A friend introduced her to this business and although she had no background in the beauty industry, she fell in love with the products and found them easy to recommend. Melissa quickly realised that she could bring her business into virtually every situation because people were either looking for a solution to a skin problem or wanted to earn more money, and now she has one of the fastest growing teams in the UK.

- **What advice would you give a brand new person?** If you really want to change your life don't even think about 'what ifs'. Just take this free opportunity and run with it and remember as long as you don't give up you will get to the top no matter how long it takes. Keep your focus on how amazing your life will be!

- **What has been the best part of your journey so far?** Nu Skin has completely changed my life and me as a person. I have stepped out of my comfort zone a lot and it has helped me grow. It has also helped me believe that it's ok to dream as I always wanted nice things but I thought it was impossible to achieve them. Especially when I didn't have the best grades in school and I didn't have much money.

**Random Trivia:** I'm known to be a bit dappy and am not the best in geography - once I thought Trinidad was in the UK. That's the best thing about this business, that you don't need to know everything as you have people to help you learn as you go on.

**"Stop being afraid of what could go wrong and start being positive about what could go right."**
