

**About Thomas:** Seven years ago Thomas thought he had been given his break in life, starting a promising career with one of the largest engineering companies in the world. His ambitious and hard working nature took him up the ladder within the company, earning him a promotion and pay increase every year. But after taking his last promotion he noticed that his fast moving career would start to plateau, as the opportunity for going any higher within the company was not in sight. This is when Thomas was introduced to Nu Skin. He instantly saw the opportunity to partner with an innovative, solid company and work smart for a short period to build a business with longterm residual income to obtain the lifestyle he always dreamed. Thomas has recently been able to leave his full time job after replacing his income in 18 months through Nu Skin.

**Thomas Banghard**

**What's the best part about your journey with Nu Skin?** I've met inspiring people, built new friendships and had the most amount of fun in the last 18 months. Some of the people I work with on a daily basis will be friends for the rest of my life. Also, the world of personal development I discovered is shaping me into the person I strive to become.

**What advice would you give a brand new person?** NEVER EVER GIVE UP! This business model works. Fact! It takes time to develop yourself and learn the skills necessary to become successful. Treat it like a business and it will pay you like a business.

**Random Trivia:** Once when working with my dad as a kid, I didn't tighten the nuts on a car wheel. Luckily the person realized whilst driving, before it fell off!

**"The biggest mistake we could ever make in our lives is to think we work for anybody but ourselves." – Brian Tracy**
