

About Emma: A Leicestershire local, Emma started her career at a well-known chocolate company but felt her free-spirited nature restricted by a 9-to-5 job. She successfully started her own teeth whitening company at 23, and quickly realised she had a real knack for building businesses from scratch. She also found great pleasure doing it. Fuelled by her passion for travelling and exploring new places (and unwilling to wait until her retirement to see the globe), Emma instantly saw Nu Skin as her route to freedom when she was introduced to the opportunity in January 2013. After “dipping her toe” in for the first year, she decided to knuckle down in January 2014 and with a lot of consistency and hard work reached the Emerald pin title within 10 months. With a team rapidly expanding in the UK and beyond, Emma can think of no better way to spend her time than building a business while helping others realise their dreams.

Emma Carpenter

- **How has Nu Skin positively impacted your life?** There are so many ways! Designing my ideal lifestyle and working on something that fits around my life rather than my life fitting around my work. The personal development and person you become in the process is also invaluable. And then of course there's the travelling and all the amazing new friends you make along the way!

- **What did you find very challenging?** Public speaking has scared the life out of me for as long as I can remember. I've managed to overcome that by realising I don't have to be perfect, I just have to be prepared to give myself a little shove. It's often said success is found just outside your comfort zone, and I'd strongly agree with that.

Random Trivia: My mom and I used to run a cupcake company and created many peoples' wedding cakes.

“If someone offers you an amazing opportunity and you're not sure if you can do it, say yes, and learn how to do it later” - Richard Branson
